ORBench Dataset Use License Agreement

This Agreement is the license agreement for the ORBench dataset. The ORBench dataset is developed by the Huazhong University of Science and Technology (HUST) team as the training set and test set. The RGB and infrared modality data in this dataset are filtered from the public datasets SYSU-MM01 (released by Sun Yat-sen University) and LLCM (released by Xiamen University), while the colored pencil, sketch, and text modality data are independently constructed by the research team led by Gao Changxin from the National Key Laboratory of Multi-Spectral Information Intelligent Processing Technology, School of Artificial Intelligence and Automation, HUST.

ORBench is divided into a training set (600 identities) and a test set (400 identities).

Any users are required to make the following commitments and sign the agreement:

1. The users undertakes that the dataset provided shall only be used for the academical research purpose and not for any other purposes.

2. The users undertakes not to disseminate the dataset in any way, such as forwarding download links.

3. The users undertakes not to reconstruct the dataset in any form.

4. The users undertakes to strictly protect the personal privacy of the individuals in the dataset. In the event of any improper acts such as privacy infringement, the users shall assume full responsibility.

5. The users undertakes that when preparing any technical documents or papers using the dataset provided for this competition in experiments, they must cite the following paper or its updated version:

Zuo, Jialong, et al. "ReID5o: Achieving Omni Multi-modal Person Re-identification in a Single Model." NeurIPS 2025.

Note: The signatory must have the legal authority to sign the license agreement on behalf of the Licensee with Huazhong University of Science and Technology. Agreements signed by individuals without such authority are invalid and will be discarded.
